Gallery Wrapped Canvas a la Carte

A gallery wrap offers a striking way to present your images on fine art canvas. The canvas is wrapped completely around the stretcher frame, stapled on the inside of the frame and sprayed with an archival finish for protection. Because the image wraps all the way around the edge, there is no need for a frame.

10 5x7 proofs

Images on CD: \$900

I will sell images on CD only after a client has purchased a collection. Each client will receive a 4x6 proof of all images on the CD with the purchase of the CD. Other wise my policy is listed below.

My main concern with providing images on CD is that I utilize a professional lab to develop your photos so that you are getting a great quality portrait (better paper, truer colors, no lab "enhancements", exceptional clarity). There is always the possibility if I sell digital files that they may be printed at the local one-hour photo place where quality can be compromised and those photos are then displayed as being done by "Honey Grove Photography". Also, I price my portraits to help reflect the amount of time that has gone into the whole process during and after your session occurs and I feel that my prices are fairly priced in relation to my competitors. I hope this is understandable.
